

Know if it's clean before you arrive.

PROBLEM

People often discover a public toilet is unclean only after arriving.

TARGET USERS

Hygiene-conscious people navigating unfamiliar parts of London

From dirty surprise to confident choice

Check cleanliness before committing to the walk.

Before

"I may only discover a toilet is dirty after I arrive."

Known location. Unknown hygiene.

WhereTol

Filter nearby toilets by your needs, then compare distance, cleanliness and recent feedback.

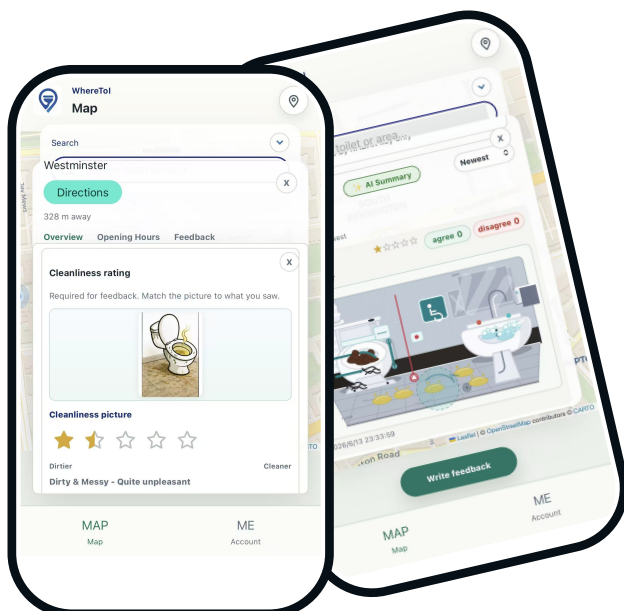

Cleanliness + distance + suitability

After

"I choose a clean, suitable toilet before walking there."

Cleanliness evidence before arrival

Cleanliness before arrival

WhereTol turns a risky toilet choice into a quick evidence-based decision: check cleanliness of toilets surrounding you, compare based on recent reports, then choose before setting off.

VALUE PROPOSITION

Find a clean public toilet before you walk there.

For confident choices in unfamiliar places.
